DROP

EVERYDAY OUTDOOR LUXURY

Award-winning Nordic Design Spa

Drop Design Spa is an outdoor spa of superior quality and outstanding design. This ergonomic spa is easy to use and delivers an unprecedented and luxurious wellness experience, nestled in the comfort of your backyard or terrace.

Its innovative, award-winning design and superior quality meet the highest of standards. A drop of luxury, made for everyone to enjoy.

DESIGN
DEED OF
THE YEAR

GOLDEN
WAVE 2022
DER INNOVATIONSPREIS VON SCHWIMMBAD
SAUNA

Drop is award-winning design

The Association of Finnish Work awarded Drop with the Design of the Year award 2015 . Drop is the only outdoor spa to ever receive this prestigious award. Followed by international design recognitions in 2019 A Design and 2022 Golden Wave for Drop Spa.

DESIGN WITH ATTENTION TO DETAIL

*Drop is a user-friendly spa and easy
for anyone to maintain*

1

Ergonomic seats providing
space for up to eight people

2

Integrated step makes
it safe and easy to use

3

Designed to fit seamlessly
on any terrace with borders
that work as tables

4

Adjustable LED light at
the bottom of the spa to
personalize ambience

DROP

SUPERIOR EASE AND COMFORT OF USE

*Drop combines design and function
in several unique spas.*

In addition to its stylish design, Drop offers state-of-the-art technology.

Electrical heating or traditional stove heating ensures that water stays at a stable and enjoyable temperature, creating a relaxing bathing experience.

Clean and fresh water is essential for an enjoyable spa experience. Filtering and UV systems combined with water clearing chemicals keep water germ-free and purified at all times.

The lockable, insulated cover saves energy and keeps the spa clean between each use.

EASY TO USE AND CONTROL

*Drop is at your disposal 24/7, always in
pristine condition for you to step-in
whenever you feel like it*

Drop is designed to be used year-round, regardless of weather conditions.

Integrated LED ambient lighting at the bottom of the spa creates unique atmosphere.

Detailed information of the measurements and technical specifications are available online: dropdesignspa.com

Our add-on feature ControlMySpa™ is a smartphone app that enables you to monitor and adjust your Drop temperatures from anywhere at any time.

DROP

MAINTENANCE

*Your order arrives with all of the
typically required chemicals to
maintain your Drop Spa*

It's important to keep your spa clean and hygienic. Drop Spas are equipped with filtration and UV-systems, which play an important role in maintaining the spa.

It's necessary to use the right chemicals to support the system. Drop Spa comes with a starter-kit allowing you to get started with the regular upkeep of the water from the beginning.

A modern rooftop terrace featuring a large, rectangular hot tub with a white interior and a light-colored, vertically-slatted exterior. The hot tub is situated on a paved terrace area. To the left, a glass door leads into a building with a white facade and a terracotta-tiled roof. To the right, a glass railing provides a view of a lush, green hillside and a prominent mountain peak in the background under a blue sky with scattered clouds. A pair of white slippers sits on the terrace floor near the hot tub.

*Elevate your spa with
high-quality skirting*

You can embed the spa completely or halfway in to the terrace. For freestanding spas, Drop offers a state-of-the-art design skirting and step, made from Accoya treated wood.

CHOOSE THE RIGHT SPA FOR YOU

*There are four things you need to consider
when choosing a spa.*

1

*Do you want to heat your spa
with electricity, wood or both?*

ELECTRICAL HEATING:

Drop X, Vuolle, Vuolle Compact,
Drop S, Lähde, Lampi

WOOD HEATING:

Pisara

HYBRID (BOTH):

Lampi, Lähde

2

*Do you enjoy bubbles?
If you do, what kind of bubbles?*

MASSAGING NOZZLES:

Drop X, Vuolle,
Vuolle Compact, Drop S

ATMOSPHERIC BUBBLES:

Lähde

NO BUBBLES:

Lampi, Lampi Compact,
Pisara

3

*Which colour/size would
suit your terrace best?*

220 x 220 CM

Drop X, Vuolle, Drop S,
Lähde, Lampi, Pisara

190 x 190 CM

Vuolle Compact, Lampi Compact

COLOUR

White / Grey / Black / Matte Black

4

*Do you want to integrate your spa
into your terrace fully or partially
embed it? Or do you want to install
it on top of the terrace and cover the
sides with beautiful skirting?*

ELECTRICAL HEATING, MASSAGING NOZZLES

**DROP X****MASSAGING NOZZLES:**

46 nozzles, massage seats for five

MESSAGE PUMP:

2,6 kW / 3,5 hp

**VUOLLE****MASSAGING NOZZLES:**

32 nozzles, massage seats for four

MESSAGE PUMP:

1,5 kW / 2 hp

**DROP S****MASSAGING NOZZLES:**

4 pcs rotating nozzles,
massage seats for four

MESSAGE PUMP:

1,1 kW / 1,4 hp

ELECTRICAL HEATING, ATMOSPHERIC BUBBLES

**LÄHDE****BUBBLES:**

No bubbles or massaging nozzles

HYBRID:

Available as a hybrid model - possible to heat with wood or with electricity

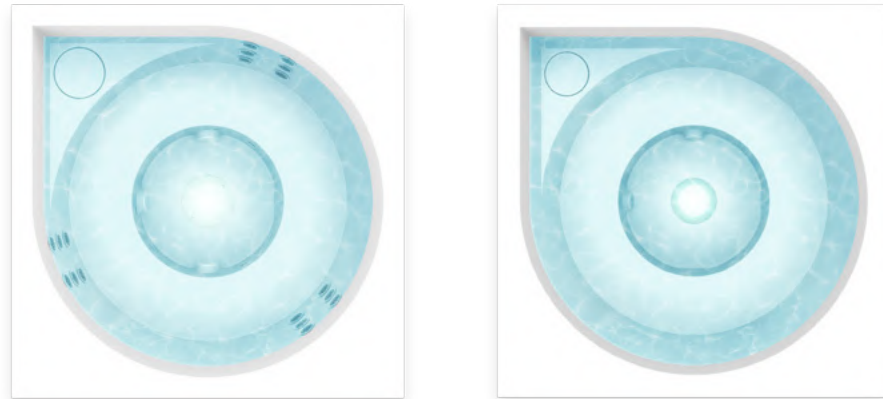

WOOD HEATER, NO BUBBLES

**PISARA****WOOD HEATING:**

35 kW Black Box stove,
chimney and protective grill

BUBBLES:

No bubbles or massaging nozzles

DROP COMPACT SERIES

*Same amount of luxury
in a smaller size*

Drop Compact Series brings you the perfect combination of luxury and relaxation for smaller spaces.

With seats for 3-4 people, Compact Vuolle and Compact Lampi bring you the same experience as our flagship models, in a smaller package, but without compromising our signature design and combination of features and adaptability.

As with all Drop spas, Vuolle Compact and Lampi Compact can also be embedded, fully or partially, to fit perfectly into your terrace or patio. Or you can install the spa on top of your terrace and cover the sides with beautiful skirting.

DROP

DROP HYBRID

No need to choose - you can heat the spa with electricity or with wood

Drop Lampi and Lähde models, that were formerly only available as electrically heated spas are now also available as Hybrid models. Hybrid model has a separate inlet and outlet for the stove, which makes it easy to open or close it when you want to heat the spa with wood.

Wood-heated spa requires a little bit more effort and time from its owner but the heat of the stove, the smell of the chopped wood and the atmospheric flames behind the stove's glass door just give that extra special feeling. On the other hand electrically heated spas are always ready and the system takes care of the suitable water temperature and filtration system. With hybrid model you don't have to choose between these options.

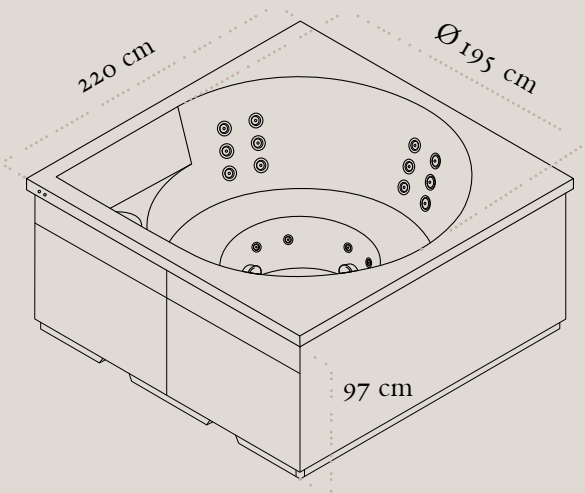

DROP SPAS & FEATURES

DROP

PRODUCT FEATURES

All you need to know about Drop Fire

Drop Design Fire is a gorgeous design fireplace that follows the shape of the Drop spa pool. The high-quality Design Fire, designed and handmade in Finland, is a true eye-catcher and an impressive design element for your patio or backyard. The fireplace is uniquely versatile and can be used outside with firewood or coal. The Design Fire comes with a square-shaped black cover that transforms the fireplace into a table and keeps water and trash away when the fireplace is not in use.

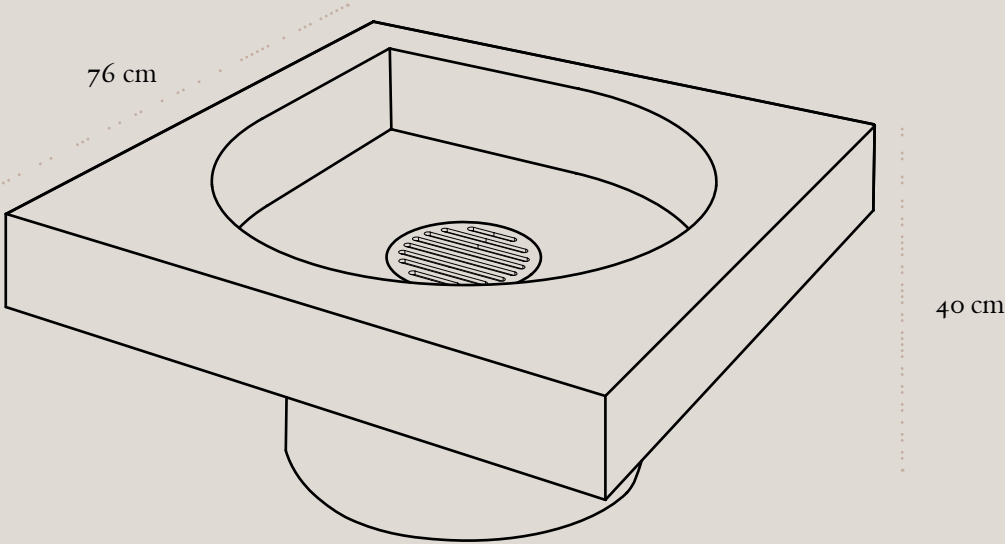

Drop Design Fire is incredibly durable. The material is 3 mm thick cold-rolled steel which is surface-treated with high-temperature powder coating. The material of the ash pan is stainless steel. The interior of the table leg is heat-protected with mineral wool so the heat from the fireplace does not reach the leg and thus, the patio or other surfaces.

- Drop Design Fire includes:
- A fireplace with a leg.
 - A square cover for the fireplace that transforms the fireplace into a stylish table for the patio.

ADDITIONAL BIOETHANOL BURNER

The bioethanol burner is a stainless-steel drop with a built-in ethanol container. The container’s capacity is a maximum of 1.5 litres of ethanol. The container is filled from the edges of the drop or by lifting the drop by the cover and pouring the ethanol into the container. Design Fire burns for approximately 1.5 hours with 1.5 litres of ethanol.

Ethanol uses up a lot of oxygen when it burns, so make sure you have sufficient ventilation if using it in closed spaces. The fire is put out by putting the cover on.

HEIGHT	MATERIAL
40 cm	Steel & Stainless Steel
WIDTH	COLOUR
76 cm	Black
LENGHT	BURNING TYPE
76 cm	Wood, coal or bioethanol
WEIGHT	USAGE
60 kg	Outdoor and/or Indoor
